**MIAMI VALLEY**  
CAREER TECHNOLOGY CENTER

Public Intro to Welding  
Oct. 11, 6-9 pm  
MVCTC (East Bldg., rear)  
6800 Hoke Rd., Clayton

Hobbyists, novices, students, are invited to attend a HANDS ON basic welding tutorial. Visitors will have a short safety and instruction review in a classroom. A brief session will be held in MVCTC labs where visitors will get to try stick and MIG welding with instructor supervision. Sessions will last approximately 1 hour and will start at various times during the evening. There is no fee, donations accepted. Visitors may bring their own welders to ask questions. Professionals will be on hand from equipment mfg's., distributors, and Hobart Institute. (Dress w/long sleeves and closed toe shoes. Age 12 or older for lab session) RSVP encouraged to [daytonaws@gmail.com](mailto:daytonaws@gmail.com)

The American Welding Society ([www.aws.org](http://www.aws.org)) is a National organization devoted to promotion of welding. The Dayton Section meets monthly and meetings are open to the public ([www.awssection.org/dayton](http://www.awssection.org/dayton)) and generally 2<sup>nd</sup> Tuesday. November 8<sup>th</sup> meeting is a Forging demonstration at Southern Ohio Forge Assc. (SOFA) in the Miami County Fairgrounds and includes Hands On activity. Sign up for meeting notices by emailing [daytonaws@gmail.com](mailto:daytonaws@gmail.com)

Miami Valley Career Technology Center has been providing career and technical training to high school students and adults in the region. Their lab and classroom instruction is designed to prepare a welder in blue print reading, multiple welding processes, and fabrication skills. As a shared resource in the community, MVCTC asks for voter support on their upcoming levy.
