The American Welding Society Iowa Section invites you to join us for a tour of Iowa Mold Tooling Co. (IMT).

With 380 employees operating out of our Garner, Iowa facility, IMT has evolved into a leading manufacturer of service vehicles and material handling systems. Their reputation for quality, value, and performance is evident in their products, which reach a worldwide market in the mining, construction, tire service, railroad, and utility industries. IMT products can be found practically everywhere, from Romanian coal mines, to Indonesian oil fields, to your local construction site. With a simple mission to be a successful, people-oriented company serving a global market, IMT has put customers first. IMT incorporates customer needs into each product that is produced and provides reliable, long-lasting equipment. Equipped with the latest in manufacturing technology and equipment and with teams that are continually striving for new developments and refinements, IMT will continue to set a standard of excellence in the design, manufacturing, performance, and delivery of high quality products.

This event is FREE to attend!

Let us know if you are planning to join us:
