WELDING AND DRIVING NASCAR RACING CARS

This talk covers NASCAR and NASCAR history to explain why the cars are fabricated the way they are today. How the cars are built will be covered as well as the materials used and the welding processes applied.

An actual race at the Talladega Superspeedway will be explained followed by videos of the speaker driving a NASCAR racing car at Talladega.

Please contact Huck Hughes 330.424.9561 X184 regarding reservations or attending this meeting.
Welder Training Scholarships Available:
This scholarship is available to AWS Districts to provide funds to students seeking welder training through a trade school, community college, or other facility providing welder training programs, such as Tulsa Welding School and Hobart Institute of Welding Technology; or for an AWS Certified Welder (CW) seminar.

The AWS Welder Training Scholarship is for students seeking welder training in a program up to two years, and cannot be used for credits towards a four-year program.

Additional information about the Welder Training Scholarship including Application Form can be found at aws.org

CCTCC STUDENT NEWS:

David Abbadi won the regional competition and will be going to the state contest the end of April. He also received the AWS student chapter award.

We are looking for donations of material to practice with and looking for jobs for seniors and internships for juniors. If you have any materials to donate, please contact Huck Hughes, CCCTC Welding Instructor 330-424-9561, ext. 184

DISTRICT 10 MEETING REMINDER
(For those who RSVP’d their attendance)
Meeting will be held at Luk USA LLC
3401 Old Airport Road
Wooster Ohio 44691

The meeting will be held on Thursday the 28th of April in the Luk apprentice training facility in the Ohio Room. 8 a.m. Continental breakfast and hot lunch. Luk currently has 100 people in apprentice training. After the business meeting we will have a short presentation and tour of the lab. Carpooling is encouraged as they are in the middle of a major building project.
