May 19th, 2016 Dinner Meeting

featuring

John Laurence Busch
Author and Independent Historian

presenting on

Captain Moses Rogers and the first crossing of the Atlantic with a steamship, the Savannah.

Mr. Busch will be making his presentation based on his book Steam Coffin, showing why the proposition of making the first crossing of the Atlantic Ocean on a steamship was met with a mixture of skepticism and fear. He then will show how Captain Moses Rogers designed and constructed the steamship Savannah.

John Laurence Busch is an independent historian who has devoted years of research to discovering the true story of Captain Moses Rogers and the steamship Savannah. This led him to scour libraries and archives from Portland, ME to Savannah, GA, and across the Atlantic to sources in Europe in order to detail the life of Moses Rogers and the story of the steamship Savannah.

Sample Technical Question:

What causes ‘arc blow’ and how does one prevent it or address it when welding?

located at the Coast Bellevue Hotel
625 116th Ave NE
Bellevue, WA 98004

HOURS:

<p>| | |</p>
<table>
<thead>

Dinner is $20 for students, $40 for regular members

(If you do not plan to have dinner you are still welcome to attend the program)

TECHNICAL QUESTIONS

Bring your technical questions to the meeting (any subject) or write them there and leave at the registration table or hand them to Steve Pollard.

They will be discussed and hopefully answered during the dinner hour.
