October 3th, 2013 Dinner Meeting

Puget Sound American Welding Society is Proud to Host:

Don Sly: Sound Testing, Inc Marine Chemist

After graduate studies (M.S. in chemistry) at the University of Notre Dame, in 1973 Don Sly entered the National Fire Protection Association training program for certification as a Marine Chemist. The following year, Don was certified as NFPA Marine Chemist No. 598. After several years as the in-house chemist at Todd Pacific Shipyard, Don began to offer Marine Chemist’s services to the ship repair industry at large. Next July marks Don’s 40th year conducting safety certifications in marine and industrial workplaces.

Over the decades in this challenging industry Mr. Sly has gained a unique perspective on ship repair and the hard working marine craftsmen, as well as accumulated numerous sea stories and other technical wisdom. Don is pleased to have the chance to share with the members of the American Welding Society.
