Dear Members,

Once again, we invite you to join us as we thank and celebrate all of our past chairmen of the St. Louis Section. Without their hard work and dedication, this section would not be what it is today. Because of that, we have been able to increase the amount of scholarships we give out each year and promote our great industry which is the purpose of our organization.

This year we will be going to the Lewis & Clark Confluence Tower in Hartford, Illinois. The 180-foot tower consists of two pillars adjoined by three viewing platforms at 50, 100, and 150 feet that look over the confluence of the Mississippi and Missouri Rivers. A visitor's center is located in the north leg of the tower where guests can read graphic panels and watch interactive video exhibits about the Meeting of the Great Rivers National Scenic Byway. This event will be catered at a cost of $25/person, and beverages will be provided. We will have seating both in the visitor’s center and on one of the platforms.

RSVP: Becky McDonald at 314-533-3100 or e-mail Becky.mcdonald@airgas.com
