Join the AWS St. Louis Section for a Fronius Welding Demonstration!

Dear Members,

We invite you to join us for a welding equipment demonstration at Cee Kay Supply. Our demonstration will be led by Jasen Friedrich with Fronius USA LLC. Fronius is a manufacturer of battery charging systems, welding technology, and solar electronics (inverters). The company is family-owned, and its Perfect Welding Division is now one of the world’s innovation leaders in the arc welding market segment. Mr. Friedrich will be showing the advantages of their TPS/i (Trans Process Solution), CMT (Cold Metal Transfer), and AccuPocket weld systems.

We would like to thank Cee Kay Supply for opening their training center and allowing the St. Louis AWS to use their facility. The demonstration is open to everyone, but please RSVP so we will have an idea of attendance.

RSVP: Becky McDonald at 314-533-3100 or email becky.mcdonald@airgas.com
(Open to everyone)

Date & Time: Thursday, January 21st, 2016
6:30 PM

Speaker: Mr. Jasen Friedrich (Fronius USA LLC)

Location: Cee Kay Supply
Hil Bax Technical Center
5835 Manchester Avenue
St. Louis, MO 63110

Sincerely,

Mike Kamp
AWS St. Louis Section Chairman
