The Upper Peninsula Section 114 of the American Welding Society will be presenting:

Tour of Tyco Ansul Tank & Systems Manufacturing

ATSM manufactures and assembles wheeled extinguishers, vehicle systems, and large stationary/engineered fire suppression systems that utilize a variety of chemical agents. Principal areas of operation include code and non-code pressure vessel manufacturing, fabrication of welded piping assemblies, structural framework fabrication, and general assembly, piping, and filling of completed product.

October 9th, 2012 at 5:00 PM
A dinner meeting will follow at
Rail House Restaurant & Brewpub

Please RSVP by October 1st, 2012
